## **DETAILED ACTION**

### ***Election/Restrictions***

1. Newly submitted claims 22-31 directed to inventions that are independent or distinct from the invention originally claimed for the following reasons: claims 22-23 are directed towards decompressing data while resuming operation from hibernation; claims 24-27 are directed towards loading a hibernation engine for entering hibernation, compressing data and using a driver to instruct write data to a hard disk; and claims 28-31 are directed towards loading a hibernation engine for resuming hibernation.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 22-31 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

### ***Allowable Subject Matter***
